REPORT NO.

- The General Director of the Sovromconstructie enterprise No. 6 in Stelin is a certain Havanov, a capable Soviet construction engineer. The chief of the cadre is a certain Oances, a workman and Communist.
- 2. The Stalin division of the Sovromconstructie worked on the Stalin-Harmani-Ozun-Moacsa-Targu Secuesc-Lunga, Bretcu-Oltuz and Polana Sarata road-Tractors were used in the construction of this macadam road. This road is nine meters wide. There are important bridges at Chichis, between Hermani and Ozun, and at Oituz and Poiana Sarata.
- The workers used on this road were Rumanians and Hungarians; all were dissetisfied with the Regime. In the village of Moacsa the Rumanian and Hungarian workers revolted against the Regime and Rumanian soldiers were brought in. Reportedly, men, women and children were seized for reprisals.
